Event cost: \$20.00

The mission of the American Business Women's Association is to bring together businesswomen of diverse occupations and to provide opportunities for them to help themselves and others grow personally and professionally through leadership, education, networking support, and national recognition.

Let's face it, whether we are a business owner, sales person or an employee we are always having to sell ourselves. Learn why using your voice to showcase your expertise is vital for women. Learn why learning to present yourself increases your credibility and generates more leads. But speaking is not just speaking. There is a special formula to connecting with your audience that touches, moves and inspires them to say yes to you! In this workshop, you will learn:

- ✓ Why learning to speak and present yourself is the best marketing tool ever!
- ✓ The success formula that moves your audience to action
- ✓ How to get what you want by establishing a connection with the audience

When Toni launched her business in 2012, she wanted to be a motivational speaker making \$5,000+ per speech. She quickly found out that unless you were already famous and a billionaire, those gigs were hard to come by. At that point, she began to invest time and money learning the speak to sell model. As a result, Toni runs her six-figure business using speaking as her #1 marketing tool. She is Constant Contact's first ever Rookie of the Year delivering more talks and opening more accounts than any other solution provider in the world! She grew her network by speaking nationally and internationally.

Forget Amazon, because of speaking, she has sold thousands of books from the front of the room. Now, she is passionate about helping other sales professionals and entrepreneurs to take the drastic step to use their voice to create a steady pipeline of leads, grow their lists and make more sales from the front of the room, even getting those paid speaking gigs. If you want to learn how to speak more to sell more, than Toni Harris Taylor is your next speaker!
